Carbondale, CO - January 29, 2015 – Orchestrate Healthcare announces today they are honored to receive this year’s esteemed **2014 Best in KLAS - Technical Services** award, their **fourth Best in KLAS award** in seven years.

“The award is a capstone recognition of the focus we place on the quality of our deliverables,” comments President Charlie Cook. “In the market today there is an abundance of start-up IT consulting firms who have sprung up in response to Meaningful Use initiatives. They promise much and deliver little. At Orchestrate Healthcare, we have consistently delivered more than our clients expect, time and time again.” Clients recognize Orchestrate Healthcare’s unwavering commitment to quality in every engagement. Through their feedback to KLAS Research, clients have positively echoed Cook’s sentiments resulting in this year’s Best in KLAS award.

“For our company to win **Best in KLAS** in **2008, 2011, 2012** and **2014**, and to be the runner-up the other years, once by 1/10th of a point, is pretty significant,” reflects Cook, “especially since we do much more than integration. Our four core competencies enable us to provide comprehensive technical solutions that address all of our clients’ needs . . . and not just integration.”

“Orchestrate Healthcare is probably the premier integrator in the healthcare technology space. They have a really strong team of specialists who really know what they are doing, and they are easy to work with. I have been very pleased with the hands-on leadership that Orchestrate Healthcare has offered, and they will be the firm that we have on speed dial for any of our third-party integration work.”

We have used Orchestrate Healthcare several times, and they always provide excellent value for the money. They are not the cheapest firm out there, but they deliver what they say they will deliver.
