

Staff Augmentation Services

From supporting existing in-house teams to becoming your team, our consultants help you to do what you do best.

“ I just wanted to take a moment to thank Charlie Cook and all the consultants at Orchestrate Healthcare for all the wonderful experience that they provided to Presence Health in the areas of technical and clinical expertise. With their help we’ve been able to achieve early adopter status for the Illinois Health Information Exchange. I have found Charlie’s staff not only professional but their knowledge set is current and has always helped us meet our goals. Thank you Charlie for your great staff and organization.

Carolyn Searle,
Systems Applications Director,
Presence Health

We Understand Staffing in Today’s Environment

Healthcare IT is moving at a frantic pace. Driven by clinical process improvement, a desire for greater efficiency, Meaningful Use incentives and a dozen other factors, healthcare CIOs are implementing change at an unprecedented rate.

What does this mean for you? Organizations need additional qualified, experienced and “line of business” IT staff. You don’t have time for on-the-job training; you need resources that can step in and get the job done. We hire only seasoned professionals. Our consultants hit the ground running helping you keep your projects on schedule and within budget.

Superior technical competence is only the beginning. Our consultants have well developed “soft” skills. Clear, effective communication and problem solving skills are our hallmark. Our work ethic and customer service attitudes are legendary. Our clients see our consultants as an extension of their own team as we work alongside or lead a project - exceeding our clients’ expectations every day.

We’re More than Just a Pretty Face

We understand there’s more to Staff Augmentation than just sending you bodies. Our goal is to help you solve your business needs, not just install a system. Our consultants have an average of 17+ years in the industry, and we put that experience to use to help your organization succeed.

We start the process with a simple approach – we listen. Next, we align your needs with the right consultants. With further evaluation we can offer recommendations based on experience that provide solutions and options – *whether technology, process, staffing and/or systems*. Our company philosophy is to be consistently proactive on our client’s behalf, doing whatever it takes to provide excellence.

Here's What Our Clients Are Saying

It's one thing to hear from your clients directly that they like your work, it's another to have anonymous testimonials through KLAS research. Here's what some of our clients are saying about us:

- “ We enjoy working with Orchestrate. They have been very responsive to us since the beginning. I think we had candidates to review within a day of requesting them. All the candidates from Orchestrate have been very knowledgeable and experienced. Also, Orchestrate's pricing is very reasonable. We have been very impressed with the work they have done for us.*
- “ Orchestrate was the easiest vendor to work with for engaging consultants. The skill set of the individuals was excellent, and they were such nice people. Working with Orchestrate was a much better experience than a lot of my other vendor experiences.*
- “ Orchestrate is just great to work with. They always provide top-notch people who not only have excellent technical skills but are also very personable and easy to work with.*
- “ Basically, the consultants from Orchestrate are willing to do anything we ask them to do. They just have a great attitude.*

Let our expert team of consultants – averaging more than 17 years of hands-on healthcare experience – simplify healthcare technology for you!

About Orchestrate Healthcare
