

Highest Ranking Firm in KLAS® Research Epic Consulting 2014 Report

Orchestrate Healthcare ranks highest compared to all other vendor-agnostic Epic consulting firms in KLAS's *THE BUMPER CROP OF EPIC CONSULTING FIRMS: HOW DO THEY STACK UP?*

This unbiased report examines the provider feedback on 33 different Epic consulting firms working in the healthcare space over the last 18 months. Vendor-agnostic firms make up the largest group of consulting firms assisting providers with implementation and staffing services with Epic and various other clinical systems.

Why choose a vendor-agnostic firm in an Epic implementation? Vendor-agnostic means we fully support legacy systems, integration engines, devices, and many other non-Epic applications that run your environment. Unlike Epic only consultants, we understand and appreciate the impact a build issue in Epic may have on other systems connected to the EMR.

We step out in front of this competitive group with the strongest consistent technical services background year-over-year. We put this leadership and top quality experience to use in every project, and as noted in the study, "Orchestrate Healthcare received positive reviews for catering to their clients' needs and providing the right resources."

We Provide KLAS Confirmed Expert and Experienced Epic Consulting Services

In KLAS Research's 2014 Epic Consulting report, **Orchestrate Healthcare ranked highest among all the vendor-agnostic consulting firms** for Implementation Support and Staffing which is the largest group of consulting firms analyzed in the report. With both the proven "understanding of Epic and interface knowledge" we also know how to support and manage the legacy systems in your environment for maximum success.

Not only are we the number one vendor-agnostic firm, we finished in the top five overall out of the thirty-three firms in the Epic healthcare arena. This placement confirms we continue to invest in being the leader in quality delivery of services despite the increased competition and influx of new firms. With so many consulting firms in their infancy within this Epic space, the report asserts, "Orchestrate Healthcare has been providing Epic resources to providers for many years. Initially, they worked in technical services and won the Best in KLAS award for this work in 2008, 2011, and 2012."

What Does Epic Ranking Indicate For You?

We know top ranking is important, providing a benchmark against colleagues and confirming our own reputation, but what does top KLAS rankings in Epic consulting mean for individual clients looking for Epic support? It means your implementation is delivered at a **QUALITY** and **EFFICIENCY** level equal to your goal in buying Epic in the first place, and it makes you more **COMPETITIVE** in a complex and demanding environment. As one provider commented in the report,

“They took ownership in the management of their reporting out. I don't see many organizations that do that. With other organizations, we hire their people and the people come to do the work, but there isn't documentation of how things are going, what they have finished, and how long they have put in on certain things. It was weird to get that from Orchestrate Healthcare and not our other three sources, but it was also refreshing. I didn't even ask for it. They just said it was what they do.”

We always take the extra step as an efficiency measure to ensure your Epic implementation is a success.

Praise from one of the nation's most dynamic Epic environments:

“From the initial build and implementation at Nemours Children’s Hospital in Orlando to Epic specific staff augmentation in ADT, Willow and Billing, Orchestrate Healthcare provides us a win-win partnership. Their Epic expertise has been extremely valuable in our collaborative relationship, especially as we also have a unique, beta environment with Epic. To have Orchestrate Healthcare’s consultants be able to hit the ground running, analyze and provide answers to our IT challenges, and train our teams on various Epic modules has been excellent.”

Connie Trusko
Senior Director,
Nemours Health Informatics

Our Role as Your Consulting Partner

Our primary role as a consulting firm is to take our client’s needs into consideration as we make vendor assessments and recommendations based upon those needs. As this KLAS report reflects, Orchestrate Healthcare came in #1 among the largest group of vendor-agnostic consulting firms. Take comfort in knowing that when you hire us, it comes with no hidden agenda or bias, but a laser-like focus on what’s truly the best solution given your situation. Our most important partnership is with our clients and always will be.

“Orchestrate Healthcare is great to deal with. They don’t rush in and try to force their methodology on us. They first determine what needs we have and adapt.”

While our consultants make us shine, our leadership is accessible, client-facing, and known to call or drop-in to check on the project. Providers in the KLAS report indicate that “Orchestrate Healthcare has a responsive executive team,” and from KLAS commentary, a CIO reported “Orchestrate had the right level of executive involvement, which was not much, but it was there if we needed it.”

We’re Ready to Deliver the Epic Outcomes You Want

We work with clients from coast to coast, and implement Epic solutions across a continuum of care environments. Our eight year old company is growing steadily as the market needs experienced consultants; we choose to focus on quality of engagement not quantity. If you are ready for a relationship with a consulting firm to deliver the **QUALITY** you seek, enabling you to rise above the **COMPETITION**, and complete your project with **EFFICIENCY** for success today and in the future, give us a call.

About Orchestrate Healthcare
