Integration

The implementation and maintenance of numerous healthcare information technology (HCIT) solutions, and a healthcare information exchange (HIE) between these HCIT solutions doesn’t have to be a nightmare experience!

Our consulting experts have managed numerous integration projects including:

- Healthcare Enterprise Application Integration
- Interface Development and System-to-System Message Brokering
- Transaction Processing and External System Connectivity
- Healthcare Information Exchange and Trading Partner Management
- Bio-medical Device and Biotelemetry Integration from the Exam Room to the ICU
- Bi-directional Lab Instrument Integration

Meeting Integration Challenges
Healthcare Information Exchange – between a healthcare organization’s resident systems or external trading partners – presents an ongoing list of challenges and requires healthcare-specific expertise.

Integration Expertise at Orchestrate Healthcare
At Orchestrate Healthcare, our sole focus is on healthcare information technology. Our consultants are well versed in all integration engines, with an average of 17 years experience working on healthcare integration projects – no matter the requirements.

While most vendors focus on a single solution or a single class of solutions, such as electronic medical records implementation, Orchestrate Healthcare understands the requirements for multiple solutions in order to improve healthcare processes and drive results.

• Application Integration and Interoperability
• Interface and Transaction Variant Expertise
• Clinical and Financial Data Exchange
• Payor-Provider and Clearinghouse Connectivity
• Revenue Cycle Management Solutions Integration
• Lab and Pharmacy Connectivity (e.g. HL7-NCPDP Data Translation)
• Hospital-Physician Office Connectivity
• CMS (Medicare, Medicaid) Reporting
• Clinical Data Aggregation for Reporting and Analytics
• Data Quality Management: Edit Validation on Existing Data Exchange

Training
Orchestrate Healthcare offers customized extensive on-site training programs for staff of all levels – from novice to skilled. We work with you to develop a program specifically designed to meet the needs of your integration management team. We will also ensure that you have adequate equipment and knowledge to continuously leverage all aspects of your application.
