BEST IN KLAS 2014

EMR IMPLEMENTATION AND OPTIMIZATION

INTEGRATION & INTEROPERABILITY CONSULTING

INFORMATION SECURITY CONSULTING

BUSINESS INTELLIGENCE

Concentrated Focus Benefits Our Clients

Focusing solely on four core competencies, Orchestrate Healthcare consultants provide specialized knowledge, expertise and unparalleled support to our clients, allowing them to compete effectively in today's rapidly evolving healthcare provider market.

EMR Implementation and Optimization

Providing full life-cycle implementations and optimizations of enterprise-wide EHR systems, achieving quantifiable results in efficiencies, while staying on top of Meaningful Use requirements.

We deliver real solutions for the process and system challenges healthcare faces. Our team's vast experiences with all major EMR systems enable us to understand the implementation and optimization challenges healthcare faces on a deeper and broader scope. From assessing project readiness to achieving Meaningful Use, Orchestrate Healthcare EMR consultants are experienced and qualified with EMR implementation, optimization, and adoption to help your organization navigate current and future regulations on time, and on budget. We deliver the outcomes your organization needs to provide the quality and cost-effective care you are known for.

Integration and Interoperability Consulting

We have proven experience in helping organizations of all types and sizes succeed with their healthcare systems integration and interoperability needs. No matter the vintage, complexity or brand of solution, there is an Orchestrate Healthcare consultant who knows your technology. Our experts work with you to develop an integration strategy: connecting your disparate healthcare applications with interoperability fluidity so that patient data continues to flow smoothly between resident systems and devices, and to external trading partners. Your data and information generated by one system will be accessible and able to be used in meaningful ways for results that work today and will continue into the future.

Information Security Consulting

Orchestrate Healthcare's Information Security Practice is focused on supporting our clients' information technology with certified information security fundamentals. We know that healthcare information security is much more than just HIPAA compliance. Our approach to Information Security includes:

- Having a risk-centered approach
- Supporting privacy and being a good steward of the patient data entrusted to the organization
- Developing an Information Security Program that is supported not only by IT, but across the entire organization and based upon common industry and recommended practices
- Creating an information security culture
- Enabling timely and flexible responses to information security incidents

Orchestrate Healthcare's Information Security Practice solutions are tailored to our clients' needs. From Risk Assessment Remediation to a holistic Information Security Strategy, we work with you to develop a plan you can trust.

Business Intelligence Consulting

Cost and Quality Analysis · Patient Engagement · Enhanced Outcomes

From developing and implementing BI strategies for healthcare systems across the country, to placing individuals within healthcare environments to perform complex report design and development in a multitude of EMRs and applications, we go beyond the basics fine tuning the tools you acquired to ensure fully engaged patients and providers.

KLAS Quality Across the Board

KLAS ratings provide an unbiased, customer-provided review of a vendor's performance. Healthcare organizations equate higher KLAS ratings of a vendor with:

- **Consistency in delivery of experienced, quality service**
- **Reduced financial risk**
- **Commitment**

At Orchestrate Healthcare, we are honored to have won our fourth Best In KLAS – Technical Services award in seven years. This award recognizes our company's commitment to quality in every healthcare IT project we do for our clients. We strive to be the best and our customers say we are.

About Orchestrate Healthcare
